CAREER OBJECTIVE

Backend-focused Software Development Engineer with hands-on experience building Django-based web applications, REST APIs, and scalable backend services. Skilled in backend architecture, authentication systems, database integration, and API design. Seeking Backend Developer or SDE internships where strong backend engineering and clean code practices are valued.

EXPERIENCE

AI Intern – IBM (Jun 2025 – Aug 2025)

- Built and evaluated machine learning pipelines including data preprocessing, feature engineering, and model evaluation.
- Integrated ML logic into backend workflows and application APIs for real-world data processing.
- Worked with structured datasets to support data pipelines and model evaluation systems.
- Collaborated using version control, documentation standards, and structured engineering workflows.

PROJECTS

- **Django-Based Video Authenticator & Uploader** – Developed a secure backend system using Django for video upload, authentication, and session management. Implemented user authentication, file validation, and backend storage handling.
Technology used : Python, Django, HTML, CSS
- **ReadMate Platform – Backend Recommendation System** – Built backend services using Django REST APIs for a recommendation-based application. Implemented backend endpoints to serve recommendation logic and manage structured data flow.
Technology used : Python, Django, REST APIs
- **Pharmacy Management System (PHARMACIA)** – Developed backend logic for inventory management, billing, and prescription workflows. Implemented CRUD operations and authentication features for data management. Technology used : Python, Django, HTML, JavaScript
- **CI/CD Enabled Portfolio Website** – Built backend APIs and automated deployment pipelines using GitHub Actions for CI/CD workflows. Integrated frontend and backend services for full-stack deployment. Technology used : Django, React.js, GitHub Actions, HTML, CSS, JavaScript

TECHNICAL SKILLS

- Programming: Python, JavaScript, Java, C++
- Backend: Django, REST APIs, Backend Architecture, Authentication Systems
- Frontend: React.js, HTML, CSS
- Databases: SQLite, SQL (basic)
- DevOps & Tools: Git, GitHub, GitHub Actions, CI/CD, Linux

CERTIFICATIONS

- Oracle Certified Associate – AI Foundations
- Django Web Development – Coursera
- Spring Boot Microservices – Udemy
- Crash Course on Python – Google
- AI for Everyone – DeepLearning.AI

EDUCATION

B.Tech – Computer Science & Engineering (AI & ML)

Babu Banarasi Das Institute of Technology & Management, Lucknow (AKTU)

Expected Graduation: 2027
